The Ulster Ballet Mission Statement:

The Ulster Ballet Company provides an opportunity for professional, semi-professional and aspiring dancers, artists, actors and other stage professionals to utilize their skills in an innovative and creative manner through collaboration. In an area often lacking in dance performance opportunities we consider ourselves a cultural service organization and a "springboard" to a lifelong love of theater and the arts. Our goal is to afford the opportunity for as many people as possible to attend our performances.

Sincerely,

Quiedo Carbone President UBC
